

# Let Us Make money For You While You Sleep

What is more pleasing to the farmer than to watch a waving field of corn, with it's rich dark leaves as it spreads and grows taller. He knows there are dollars in every row. WHAT will help make this more than

## The Beta Fertilizer

Had you stopped to think how this is prepared, first the talc is taken from the earth, ground, reground and dried then the chemicals are mixed uniformly with this and is ready for use. If you will study the analyses of this talc you will find it contains the very ingredeints our soil needs. it is a plant food, besides a binding tendency which holds the chemicals, closer the pores in the soil and keeps the rain from washing the fertilizer away before it has given the plant its strength. This is why the BETA FERTILIZER is better and gives more satisfactory results than a fertilizer with a sand filler. This has been tried and found true by some of the best of this county and other counties. If there is no virtue in this as a filler why are some of the best fertilizer plants of other states wanting freight rates reduced so they can ship this talc hundreds of miles to be used in their fertilizer.

**Buy more Fertilizer and less Corn and feed. Jackson County should be exporters instead of importers. Write any of the men who are using this fertilizer extensively and they will tell you they sell corn instead of buying.**

Don't stop fertilizeing when you use it in planting. but use it when you work the corn the second time for then the ear gets the benefit of it. Read the testimonials below of some of our best farmers.

Mr. Holmes Bryson,  
Dillsboro, N. C.

Dear Sir—I find no Fertilizer that I ever used better for corn, than the BETA FERTILIZER? my neighbors are getting to using it more every year.

Yours very truly,

J. W. Buchanan (Sheriff)

Beta, N. C.  
March, 20, 1914.

Mr. Holmes Bryson,  
Dillsboro, N. C.

Dear Sir—Mr. Altenbrand authorizes me to guarantee BETA FERTILIZER to give better results, than any other Fertilizer of the same analysis.

If it fails to do this we will refund \$1.00 on each ton of our regular Corn Fertilizer, you can give this guarantee to your customers and we will protect you in it.

Yours very truly,  
Beta Fertilizer Company,  
Lewis J. Henson  
Manager.

This spring I bought several bags of Beta Fertilizer from Holmes Bryson and used it on my corn crop this summer and have received results from it surpassed by no fertilizer I ever used. My neighbors have used it and all speak in the highest words of it.

Cashiers, N. C.

Sept. 5th. 1913.  
A. S. Bryson,

Mr. Holmes Bryson,  
Dillsboro, N. C.

Dear Sir—I have used the Beta Fertilizer on different crops and especially corn, and am glad to state, I get better results from it, than any Fertilizer that I have ever used.

Last year I gave it a test and made one third more corn on the same number of acres than I did where I used other Fertilizer?

Wishing this County Enterprise much success, I beg to remain.

Yours very truly,  
W H. Jones.

Mr. Holmes Bryson,  
Dillsboro, N. C.

Dear Sir:—In regard to THE BETA FERTILIZER w'll say that I have used it on my corn crop, and find it equal too or better than any Fertilizer that I have ever used.

This being a County Entergrise I hope for it much success, and from all reports from the Farmers that have used it I think their will be no trouble in making it a go.

Yours very truly,

W. C. Cagle,  
Webster- N. C.

Mr. Holmes Bryson,  
Dillsboro, N. C.

Dear Sir:—I have used the Beta Fertilizer on corn and got good results from it.

Yours very truly,  
J. T. Moody,

Mr, Holmea Bryson,  
Dillsboro, N. C.

Dear Sir:—I wish to state that I used

several hundred pounds of BETA FERTILIZER last year on the farm of Sheriff Buchanan, near Webster, N. C. I used one third less Beta Fertilizer an acre than I did other Eertilizer of the same analysis, and if any diffarence the crop where I used Beta Fertilizer was the best.

Yours very truly

Chas. Buchanan.

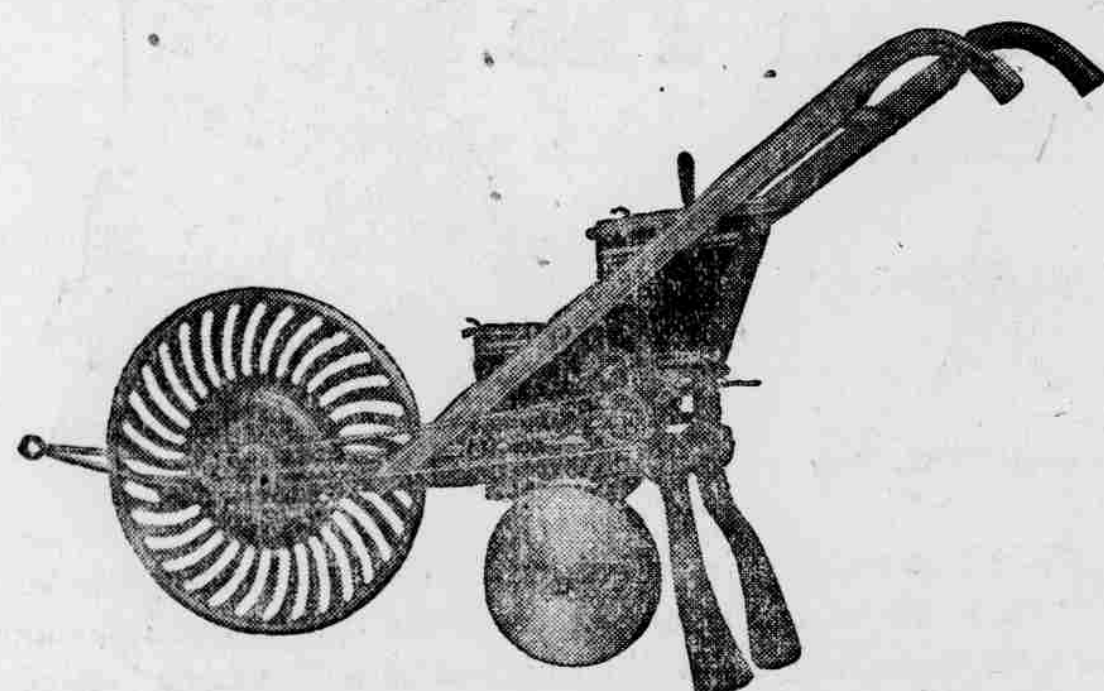

Norton, N. C. Jan., 5th 1914.

Beta Fertilizer Co.

Beta, N- C.

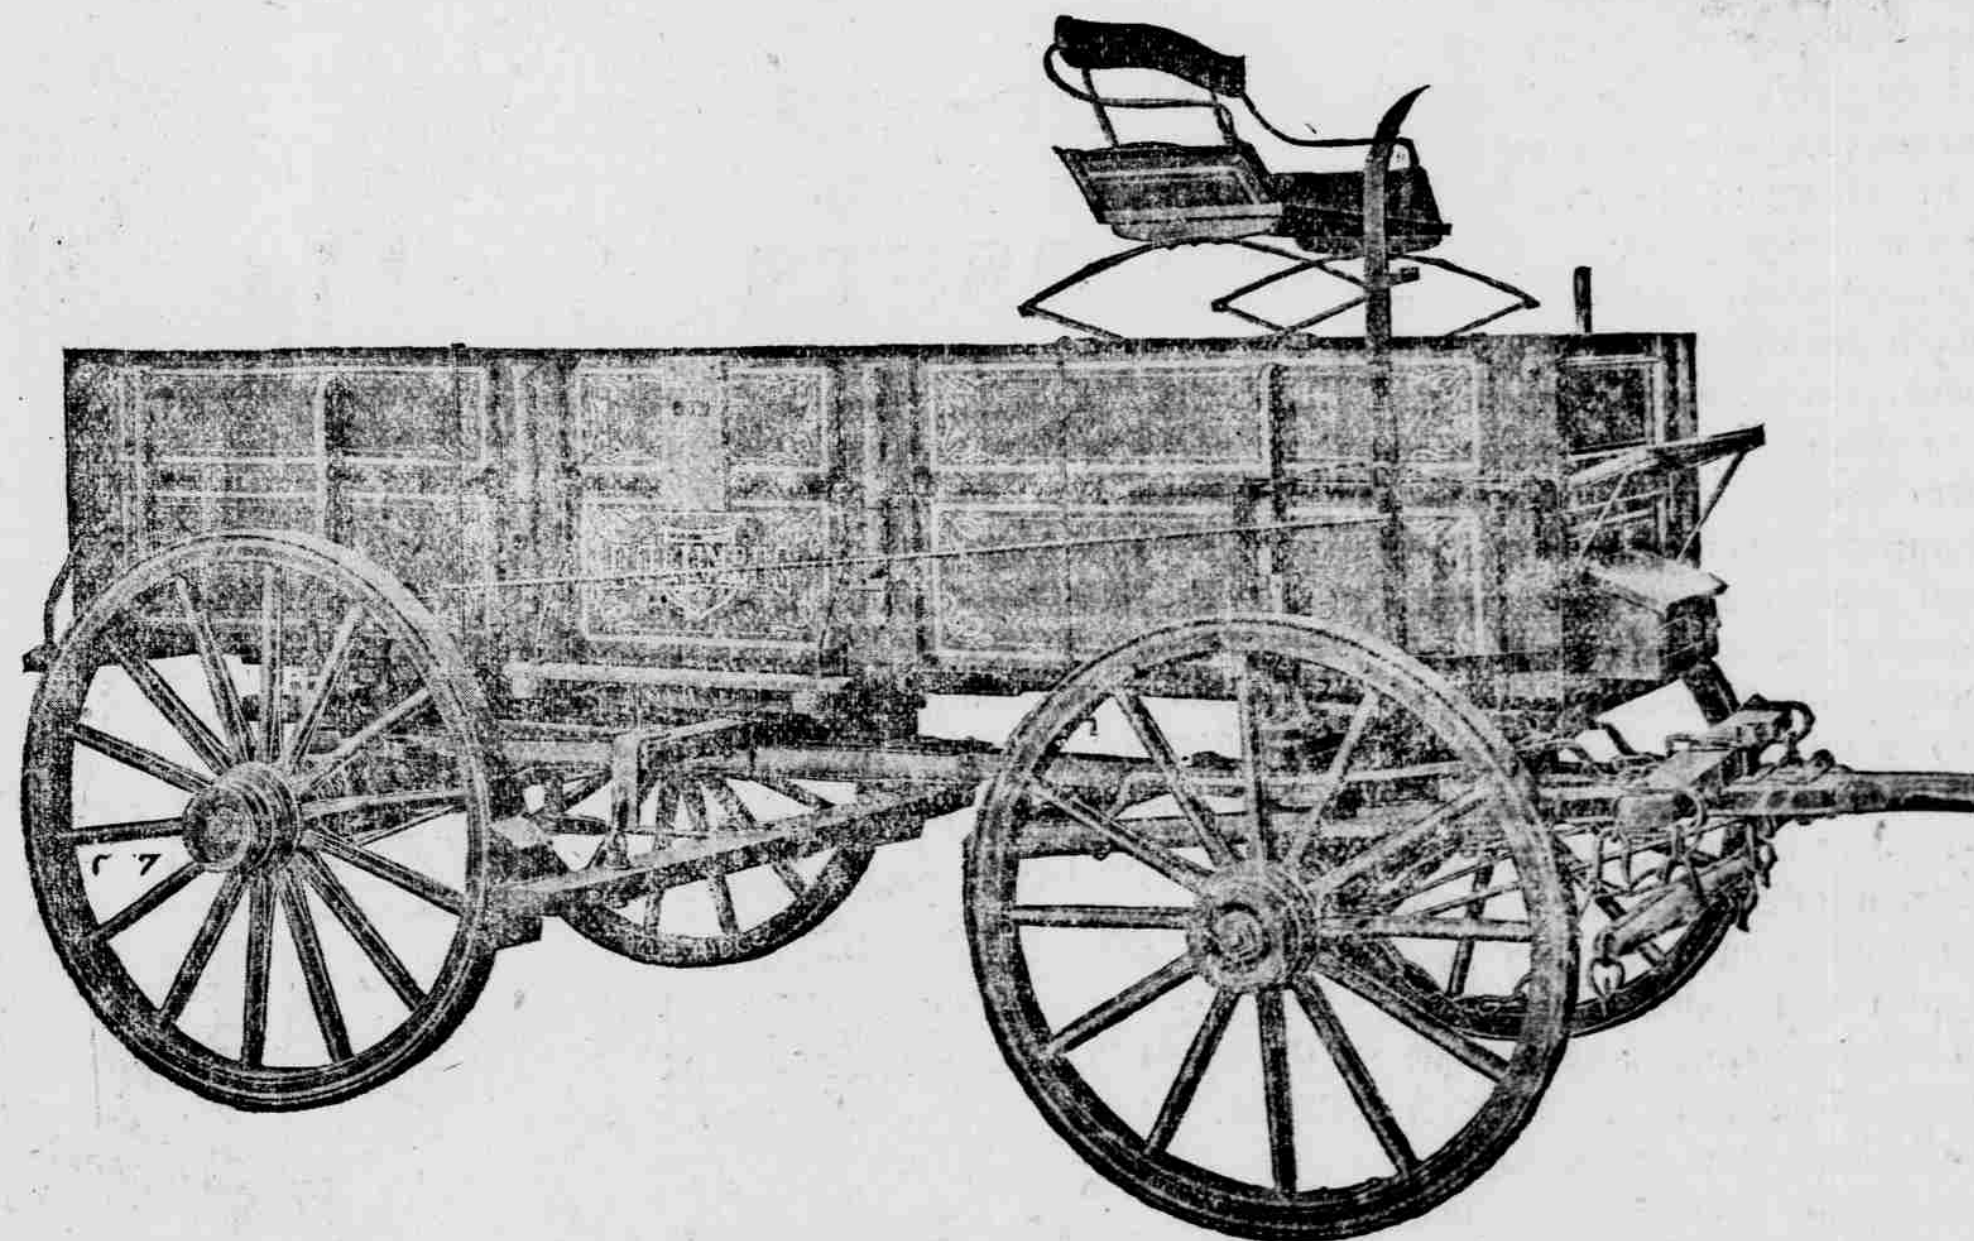

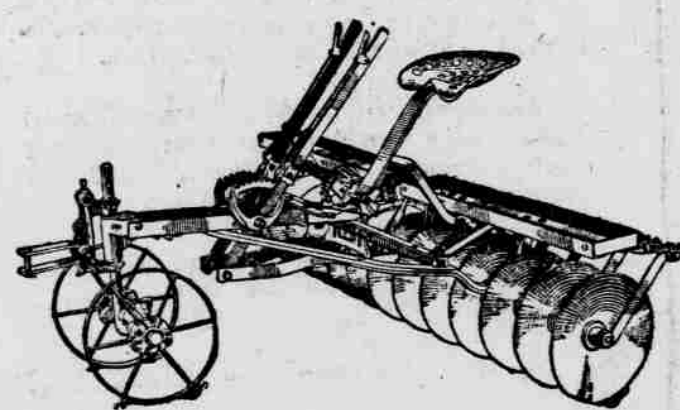

Dear Sirs:—I wish to add my testimonial to the many others which you have. Having used your fertilizers last season I find it gives better results than any I have ever used, and with this favorable personal experieuce I unreservedly recommend it to all Hamburg farmers, I think it is perfectly adapted to our soil.

Respectfully,  
B. Norton.

You can not plant corn or distribute fertilizer in the right way without a corn drill. We have the Hoosier, none better.

Get you land in shape for a crop using a disc or a drag harrow. We have them.

Buy the best Wagon you can hitch to a "Columbus Blue Ridge" We have them.
